Global Student Health Care

is for those parents who wish to feel secure about their children's health wherever they are globally.

Sending our children for studying abroad can get us worried about their health and well-being.

Many questions arise:

- How will my child cope with an illness?
- Will they have access to the best healthcare in our absence?
- Will we be able to pay foreign medical expenses?
- Will their Indian insurance apply in the foreign country too?

So while your child gets the education they deserve, their health insurance protects them anytime, anywhere.

What is Global Student Health Care all about?

This plan is a complete and flexible International Private Medical Insurance that can be used anywhere in the world. It offers the highest level of coverage

and access to the best medical facilities available to eligible international students.

Why opt for a private health insurance plan?

- Most international universities and colleges require students to be covered under a health insurance plan
- Our insurance meets most university requirements and typically comes as a more comprehensive option than that offered by the university
- The plan offers **direct billing and online reimbursement** option for claims
- You are prepared for any health contingencies well in advance and can look forward to a safe and secure time at the university

**Worldwide
access to over
750,000
medical facilities**
